

ON FARM WATER MANAGEMENT PROGRAM

WATER MANAGEMENT FOR RESILIENT FARMS

The **On-Farm Water Management Program (OFWMP)** is a program seeking applicants who want to find ways to take advantage of water resources naturally available on their land, and by doing so improve farm resiliency to drought, manage resources efficiently, and enhance farm profitability. Grants of up to \$250,000 are available to qualified applicants.

Explore the following links to learn if your farm would qualify for funding through the OFWMP:
