Status and CORs*

## Welcome

NetDMR is a web-based application that allows National Pollutant Discharge Elimination System (NPDES) Permittee Users to enter and electronically submit Discharge Monitoring Report (DMR) data through the Central Data Exchange (CDX) to the Integrated Compliance Information System (ICIS). This is an alternative to the paper-based DMR submission process. If you are a permittee, this website can be used to complete and submit DMRs electronically for your facility.
